RE: Permit No. 47-7659 and 47-7731

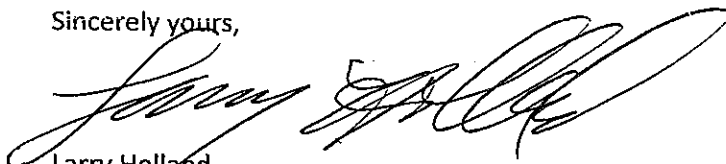

Dear Ms Blakely:

I have received a letter from the State of Idaho Department of Water Resources, stating that
"Measuring devices of a type approved by the department shall be permanently installed and
maintained at the point of diversion and the point of effluent discharge."

Since we do not currently operate a fish farm in our pond, and do not have any plans to do so in the
future, we feel that this requirement is an excessive expense for the current use of our property.
Therefore, I am requesting a waiver for the requirement of a measuring device on my property. A
measuring device was not a requirement at the time we got our original permit.

Please issue a waiver to remove the requirement for a measuring device from our permits # 47-7659
and 47-7731.

Sincerely yours,

Larry Holland
