SECTION 42-1412(6), IDAHO CODE.

2. At the time of the recommendation and partial decree in the SRBA, the relationship between an existing fence line and the west quarter-quarter section line marking the east boundary of the place of use for this water right was unclear. The map overlay showed the existing fence line approximately 160-200 feet east of the west quarter-quarter section line (See Map "A" attached hereto), which means the place of use for this water right may include lands in the east half of the southwest quarter, section 17, T07S, R39E, B.M., and the east half of the northwest quarter and the east half of the northeast of the southwest quarter, section 20, T07S, R39E, B.M. However, other information indicates that the existing fence line may in fact approximate the west quarter-quarter section line. In either case, irrigation should be allowed up to the fence line, in accordance with historical practice. If a full land title survey settles all boundary disputes by court order or stipulation, And concludes that the east half of the southwest quarter, section 17, T07S, R39E, B.M., and the east half of the northwest quarter and the east half of the northeast quarter of the southwest quarter, section 20, T07S, R39E, B.M., should be part of this water right's place of use, then a correction to the place of use description for this water right may be needed. If the right holder requests the correction in writing, supported by sufficient documentation, and if allowed by law, a formal transfer pursuant to I.C. 42-222 shall not be required because no physical on-the-ground change would occur. However, no correction to the number of acres shall be allowed.
3. RIGHT INCLUDES ACCOMPLISHED CHANGE IN PLACE OF USE PURSUANT TO SECTION 42-1425, IDAHO CODE.
4. THE QUANTITY OF WATER DECREED FOR THIS WATER RIGHT FOR STOCKWATER USE IS NOT A DETERMINATION OF HISTORICAL BENEFICIAL USE.
5. The rights listed below are limited to a total combined diversion rate of 7.65 cfs.
Combined Right Nos.: 29-30, 29-31, 29-16320, 29-13321, and 29-2379.
6. The rights listed below are limited to the irrigation of a combined total of 382.2 acres in a single irrigation season. Combined Right Nos.: 29-30, 29-31, 29-13320, 29-13321, and 29-2379.
