900 North Skyline Road, Suite A
Idaho Falls, ID 83402

Dear Mr. Carlson:

I am writing in response to your letter of March 8, 2010, regarding the application submitted by Leigh Meadows Development for a change in use of their water right (Application No. 74354). We wanted to notify you that we are working on getting a resolution of this matter.

The Fremont-Madison Irrigation District protested this application in March of 2008. A notice of that protest was sent to the developer of the Leigh Meadows subdivision, David Chapman, who failed to notify us. Since the watermaster did not oppose this application and in the absence of any correspondence that the application had been protested, we had assumed that the application had been approved.

We are now attempting to resolve this matter. We have prepared a settlement proposal for Fremont-Madison, and we are hoping to have this matter resolved shortly so that the transfer application can be approved.

If any other issues arise appurtenant to this application, we would appreciate it if you would contact us and/or copy us with any additional correspondence.

Yours truly,

Nancy J. Liebrecht, MLA
Environmental Planner
