RE: Phone call from Dave Rainwater

This morning Dave Rainwater called to ask some questions about the letter Kandice McDermott sent him in February. I explained that IDWR needs a copy of his warranty deed. Mr. Rainwater also informed me that he purchased only 8.9 acres of the 14.7 acres authorized for irrigation by the water right. I asked him to send IDWR an indication of how much of the water right he believes he has purchased when he sends his warranty deed. I also explained that if he did not provide any information about the split, IDWR would assume a proportional split of the right based on the number of acres he has purchased.
