Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

SCANNED
DEC - 7 2010

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 762-2800.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith E. Franklin". The signature is fluid and cursive, with the first name "Keith" being more prominent.

Statement of Available Procedures and Applicable Time Limits

RESPONDING TO PRELIMINARY ORDERS ISSUED BY THE IDAHO DEPARTMENT OF WATER RESOURCES (To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Dear Eric:

REFERENCE: 91-7215 & 91-7216; HURST

IDFG is concerned about the recent proliferation of recreational lots, and the potential negative impacts to stream flow, and stream and riparian habitat, along the St. Joe River. The St. Joe River is managed by IDFG as a quality westslope cutthroat trout fishery and is very popular sport fishery. Anglers from all over the United States travel to northern Idaho to fish the St. Joe River. In 2003, anglers spent in excess of four million dollars on fishing trips to the St. Joe.

This location is an important migratory reach of the St. Joe River for bull trout that provides seasonal holding and foraging habitat where bull trout may be found throughout the year. Additionally, adfluvial westslope cutthroat trout can be found throughout the year in this location. Westslope cutthroat trout are a State Species of Species of Special Concern. Idaho and neighboring states (MT/WA/OR) have recently fended off a listing of westslope cutthroat under the Endangered Species Act by demonstrating that healthy populations and habitat exist in places like the St. Joe River, and that the appropriate state regulatory mechanisms are in place to protect them. This system is an important component of westslope cutthroat trout habitat range-wide.

Although the amount of flow requested in this particular application is small, we are concerned that the cumulative effects of recreational lot owners applying for diversions may be harmful to this economically and ecologically important fishery.

The State of Idaho has recognized the importance of this fishery by instituting a Minimum Stream Flow to prevent the degradation of instream habitat. Water shall not be diverted under this right when flows in the St. Joe River are below minimum flow amounts as defined by Right 91-7215 (941.00 cfs from November 1st through July 31st and 470.00 cfs from August 1st through October 31st from Marble Creek downstream to St. Maries).

The applicant should be made aware that their diversion cannot negatively impact the established minimum flow in the St. Joe River. Because water right diversions allow water users to manipulate streams, we recommend this permit be conditioned to require no disturbance to the stream channel. If pumps are used, they should be adequately screened to prevent entrainment

Keeping Idaho's Wildlife Heritage

and /or impingement of juvenile trout (we recommend $\leq 0.25''$ mesh, with approach velocity of ≤ 0.5 feet per second).

Maintaining and protecting instream and riparian habitat, and particularly stream flow, is essential to sustaining healthy fish populations. Furthermore, intact stream corridors provide habitat for a wide range of terrestrial and avian species, from big game to migratory birds.

Thank you for your attention to this matter.

Sincerely,

Charles E. "Chip" Corsi
Regional Supervisor

Good morning, Kaisie,

This morning it sure felt a lot like Fall is in the air. We'll be catching (or raking up) leaves before you know it.

Please publish the enclosed legal notice on the dates indicated, September 1 and 8, 2010, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

Please send a proof/preview copy for my review before this goes to press.

Also, please watch for a hidden tab before Gary Spackman's name – if it shows up it will move his name and title to the right hand margin. We prefer for it to be on left margin.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 9/20/2010. Your cooperation is very greatly appreciated.

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the ST MARIES GAZETTE RECORD on 9/1/2010 and 9/8/2010. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Dianne,

We have no objection to these applications. However, it would make for a more complete and informative application if the pump horsepower & whether gas or electric, and the size & construction material of the pipe were listed. Thanks for the opportunity to comment. If you have any question or comments please contact me.
