RE: Application for Transfer

Dear TJ Budge:

The Department of Water Resources has received your application for transfer. Preliminary review of the application indicates that it is incomplete and cannot be accepted for processing. We are returning your application, change of ownership and filing fee to allow you to complete the necessary items. The required information is described below.

On the Change of Ownership for the Recorded Right, the deed is not signed, notarized or stamped by the county showing it is officially recorded.

On the Transfer application, it is not notarized correctly.

The map on of the new Place of Use and page 1 place of use are not acceptable.

Water Right 13-679 is not appurtenant to the legal description of the land purchased, and may belong to another Smith landowner.

This transfer looks to be an enlargement. Enlargements can not be processed. You cannot separate two water rights that were appurtenant to the same place of use and the same acres and use them on two entirely different parcels (increasing the acreage).

Please feel free to contact this office if you have any questions.

Sincerely,

Sharla Cox
Water Resource Administrative Assistant
