RE: Application for Permit

Dear Applicant:

The Department of Water Resources has received your application for permit. After a preliminary review of the application, we have determined that it is incomplete and cannot be accepted for processing in its current form. We are returning your application and filing fee to allow you to address the deficiencies described below.

Your application for permit falls within the boundary of administrative basin 13, which, no new consumptive uses of surface water are open for appropriation. This also includes irrigation in correlation with new domestic uses. However, new application for permits for non-consumptive uses such as domestic (in-house use only) and stockwater uses are being accepted and processed by the department. The department will accept your application for permit for the stockwater and in-house domestic uses. Nonetheless, your application for permit contains the following errors:

- The point of diversion (item #3) and place of use (item #8) legal description should be described as 14S 41E Section 8 instead of 11S 41E Section 8.
- Item #4 contains a typo. (Jan 1 to Dec #1).

Once the deficiencies listed above are addressed, you can resubmit your application for review by the department.

Please contact this office if you have any questions.

Sincerely,

Blake Jordan
Sr. Water Resource Agent
