RE: Application for Permit No. 63-33343 for Al & Jerry Lueck Farms, LLC

Dear Ms. Grimm:

In a letter dated October 7, 2010, you requested some follow up information regarding the subject application.

In response to your question on authority to sign the application, please consider the attached report from the Arizona Secretary of State web site to demonstrate that Albert and Jerry Lueck are the only managers of the LLC and have authority to sign. They both signed the application for permit.

Second, the attached map and well logs will support the following description of the diversion works and proposed water bearing zone:

Existing well "Irrigation #1" was drilled in 1974 to a total depth of 400 feet. The water bearing zone is primarily 220 to 240 and again between 328 to 388 feet. "Irrigation #2" was drilled in 1971 to a depth of 606 feet; the water bearing zone is variable between depths of 334 and 400 feet. The proposed well will target the same water bearing zones between approximately 300 and 400 feet, but may need to extend to a depth of 600 feet. The water from the two existing wells and the proposed wells will be used to irrigate the proposed place of use via end-gun of a pivot, handlines, and possibly a drip system in the difficult terrain areas.

All three wells are included in this application for permit to provide flexibility to irrigate some difficult terrain areas within the property that have not previously been irrigated.

If you have any questions, please call.

Regards,

Steven R. Hannula

Re: Application for Permit No. 63-33343 for Al & Jerry Lueck Farms, LLC

Dear Steve:

This office received your client's Application for Permit seeking a water right referenced above. Upon review of the application, there are a few questions that need to be addressed, which do not require an amendment to the application. The questions are listed below. Please submit the additional information to the Idaho Department of Water Resources (Department) to allow for continued processing of this application.

The questions regarding the application are as follows:

- If an application for permit is filed by or on behalf of a partnership or joint venture, IDAPA 37.03.08.035.03.b(i) requires the applicant submit a list of names and addresses of all partners and shall designate the managing partner. Typically, the Department does a search of the Idaho Secretary of State's website for the corporation, partnership, etc. applying for a new permit or transfer. A search conducted for the applicant in this instance was unsuccessful. Please confirm if Al & Jerry are they only partners/members of this Limited Liability Company. If not, please provide the names and addresses of the other partners.
- The description provided for the proposed diversion works on the application was incomplete. Please submit information regarding the method of irrigation proposed (center pivot, wheel lines, gravity, etc.) and the proposed water bearing zone. All ground water applications in Basin 63 require advertisement of the proposed water bearing zone, even though some permits will not have water bearing zone conditions/limitations.

Please submit a response addressing the questions posed above to allow for further processing of the application. Your response, or a request for more time to make your response, must be received within 30 days from the date of this mailing. The application will be voided without a timely written reply.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions or wish to address some if not most of the above questions over the phone or via email (angie.grimm@idwr.idaho.gov). Thank you for your attention to this matter.

Sincerely,
