Subject: FW: IDWR Application for Amendment 65-13912

Dr. MacGregor,

Thank you for your phone call today. I wanted to provide you with a copy of the Application for Amendment that we discussed (see attachment). The attached amendment purposes to drop the commercial use as we discussed at the meeting. However, the amendment is not adding a domestic use, as requested in your amendment that was submitted at the meeting.

If we were to amend the permit to drop commercial use and add domestic use, we would advertise the amendment in the local paper. If you simply drop the commercial use, no advertising would be necessary. Please note that either way we would correspond with the Pancheri's and notify them of the amendment, especially since the removal of Condition #9 may impact them.

As I stated in the last letter I sent to you, having the permit include heating use only should cover your water use as described in the Musgrove analysis. If you would like to keep domestic use on your permit, I will prepare the notice for the paper and contact the Pancheris. Otherwise, please sign and return the enclosed amendment to me and I will contact the Pancheris.

Please contact me at 208-287-4944 if you have any questions about this. Have a great day!
