Subject: Ownership change

Hi Craig,

The property description matches. I can change it if you want me to. When we have to go the way of ownership change rather assignment of permit while in the permit stage, the person who issues the license changes the ownership at the same time.

If you're ready to license, and want me to do it, I will gladly. If it's not ready to license, I don't think I can update the ownership yet.

Make any kind of sense? ☺

Emalee
