Re: Permit No. 74-15636

Dear Ms. Block,

As per required, a flow meter and totalizer will be installed on November 19, 2010 at the authorized point of diversion. The lockable control device query was incorrectly marked no, and it should have been marked yes, as the electrical breaker box is lockable and tagable. However, we have installed a lockable ball valve device as well.

If you have any further questions or concerns, please contact us.
