

MEMORANDUM

Date: November 12, 2010
To: Transfer 76897 File
From: William Mills
Re: Evaluation of Sufficiency of Information Submitted

Previous transfer 72175 (approved 11/5/2005) split water right #36-7156 and changed the point of diversion for this portion of the groundwater right #36-16837 (0.48 cfs used to irrigate 35.7 acres) to a well in the SWNW of Section 20, T07S, R14E, which was never drilled. As the well was never drilled and the extension of time granted for the transfer will soon lapse, applicants would like to change the point of diversion for transfer 76897 to an existing well in the SWNWNE of Section 20, T07S, R14E. Proposed point of diversion is located approximately 3.0 miles east and 0.50 miles south of Hagerman. Place of use is located approximately 2.5 miles east and 0.70 miles south of Hagerman.

- **Authority to File:**
The applicants are listed as the current owner of the right.
- **Water Right Validity:**
Decreed in the SRBA on 1/2/1998. Right was involved in previous transfer 72175, approved 11/5/2005. Recent Aerial photography indicates that the property involved with this transfer appears irrigated.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
