RE: Application for Permit – Moo View Cow Palace

Dear Applicant(s):

The Department of Water Resources has received your water right application. Preliminary review of the application indicates that it is incomplete and cannot be accepted for processing. We are returning your application and filing fee to allow you to complete the necessary items. The required information is described below.

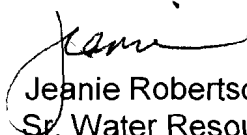

This application was received in our office on August 14, 2008 for development on Woodbury Spring of domestic and stockwater use for **one home**. I am still holding the original two applications that were filed in January. **45-14106** was for domestic and stock water use on Woodbury Spring but it was for **4 homes**. In a letter I'd sent out in February, I asked if you wanted all four homes to be limited to "one" combined limit of 13,000 gallons per day and ½ acre of irrigation or if you wished to make separate filings so each could have their own 13,000 gallons per day and ½ acre? Is this most recent application intended to amend 45-14106 to only one home? Or is it an additional application for use on Woodbury Spring? If it is intended to amend, since 45-14106 has not yet been advertised, the \$100.00 fee you enclosed would not be needed.

You also indicated that a copy of the right-of-way grant #I-3983 from the BLM was enclosed with the application but it was not included.

(**45-14107** was for development of Lunch Creek, Antelope Creek, and Dayley Creek for stock water and re-charge purposes and we have still not received the requested information on that one either.)

Please feel free to contact this office if you have any questions.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
