Re: *City of Pocatello Application for Transfer No. 76779*

Dear Jeff and James:

I am forwarding you papers and supporting materials, including a CD containing a zip file of GIS data for places of use/points of diversions identified, intended as an amendment to the City of Pocatello's Application for Transfer No. 76779 filed with IDWR on August 30, 2010. This submittal is intended to serve as the basis/documentation addressing the following:

1. Elimination of mitigation, leases, and exchanges as proposed purposes of use;
2. Identification of specific points of redirection for proposed purposes of use; and
3. Identification of places of use for non-municipal purposes of use.

These amendments necessitated minor changes to several pages in the Application form and to the Report in Support of the Application, which contains substantial additional information. The City requests that these materials be substituted in total for the materials behind the front page of its August 30, 2010 submittal, and that the Department proceed with processing the Application as amended. Mayor Blad's signature may be considered as the City's authorization for IDWR to make this substitution. The original of the signature page will be forwarded to you as soon as I receive it here in my office.

Jeff Peppersack
