RE: 65-22912 Jug Mtn. Ranch LLC, Approval of Six-Month Extension for Installation of Measuring Devices

Dear Jug Mountain Ranch LLC Owners:

On November 9, 2010, we received an email from Scott King, SPF Water Engineering, LLC requesting a six-month extension on the condition for installation of the measuring devices. The condition we are referring to is on your permit as follows:

Prior to diversion of water under this right, the right holder shall provide a means acceptable to the department to measure the amount of water entering the reservoir and the amount of water released from the reservoir.

Reviewing this request with management, your request is granted for six-months (till May 9, 2011). We must resolve this issue before a license can be issued. *IDAPA 37.03.02 d. Field Report Acceptability.* Pursuant to Section 42-219(6), Idaho Code, if the conditions of approval on a permit are not complied with, we may issue an order voiding the permit.

We will withhold further action for six-months from the date of this letter (May 9, 2011). If we do not receive verification of installation of the measuring devices from you within this time period we will assume you are not interested in pursuing a water right license and will take action as suggested above.

If you have any questions in regard to this matter, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "Sandy Hemenway". The signature is written in a cursive, flowing style.

Sandy Hemenway
Sr. Water Resource Agent
