RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK/WATER RIGHT NO. 37-2627D

Dear Mr. Yorkin:

The Department of Water Resources ("Department") acknowledges receipt of your application to rent water from the Water Supply Bank ("Bank"). Please find enclosed a Water Supply Bank Rental Agreement for your review and signature. Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **\$98.00 per year** was calculated based on \$14.00 per acre-foot times a diversion volume of 1 acre feet. Please send a check made payable to the Idaho Department of Water Resources together with the signed rental agreement to my attention within ten (10) days of receipt of this letter so I can complete the processing.

Applications for rental of water must be reviewed in accordance with Idaho Code § 42-1763 and the Department's Water Supply Bank Rule 30 (IDAPA 37.02.03.030). This includes consideration of whether the proposed use will reduce the quantity of water available under existing water rights. The Big Wood River upstream of Hailey is an effluent stream, meaning ground water is tributary to the river. Minimum stream flow water rights and other surface water rights may be affected by changes in ground water use. The Department still has questions about whether the type of change proposed by the enclosed rental agreement will reduce the quantity of water available under other existing water rights in the Big Wood River basin. However, the use described in the rental agreement is for a relatively small quantity of water, the rental period will be limited to two years, and the water right being rented is located in a part of the basin with similar hydraulic characteristics as the rental location. The Department is willing to authorize this rental for this brief period while continuing to evaluate potential injury to other water rights caused by long term or permanent changes in water use. The use of water under this agreement should not be construed as establishing a precedent and shall not prejudice the Department in its consideration of an application for transfer or permit for the use authorized by the rental agreement.

If you have any questions, please contact me at (208) 287-4907.

Sincerely,

Monica Van Bussum
Sr. Water Resource Agent
