Remarks: This water right includes the right to divert water which is recovered ground water resulting from recharge for irrigation and/or water resulting from irrigation under the North Fremont Canal Systems, Inc. irrigation works for use on lands within said irrigation entity's authorized place of use. Diversion of this right for the purpose of irrigation is authorized for a maximum acreage equivalent to the authorized place of use for this right. This right includes an accomplished change in place of use pursuant to Section 42-1425, Idaho Code. § I.C. 42-1425 and/or I.C. 42-228. This right includes an accomplished change in point of diversion pursuant to Sections 42-1425 and/or 42-228, Idaho Code. In the event recharge or recovered water is not available, the priority date shall revert to the previously licensed priority date.

- This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
1. C18
 2. This right is a split from former right 21-7300B.
The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under this right. The right holder shall limit the diversion of ground water under this right to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.
 3. 065

Describe any other water rights used at the same place and for the same purposes as describe above: Those water rights recommended as of the date of this amended claim.
