RE: APPLICATION TO LEASE ALL OF WATER RIGHT 65-7770G TO THE WATER SUPPLY BANK

Dear Right Holders:

I am Coordinator of the state Water Supply Bank (Bank). It is my job to review applications to lease and rent water rights from the Bank. I have been reviewing old applications and need your assistance with one.

I found data entry in our database that says we received an application to lease 65-7770G to the Bank from Ernest Updike on October 8, 2003. However, I have been through all of the 65-7770 files and have not been able to find an application. To solve this issue and close the data entry, I need two pieces of information from you:

1. Have you been using the water right? If so, please call me as soon as possible at (208) 287-4907 so I can close the record. Currently, we consider the right as offered to the Bank and it is to remain unused while it is offered to the Bank. If you are using it, we need to update our data entry so your water use is authorized.
2. If you are not using the water right, and want to lease it to the Bank, I need you to call me at (208) 287-4907 as soon as possible. Without an application, your water right will be in limbo and that can cause confusion as far as authorization to use water.

From the above, you see it is important that you contact me so I can make sure your water right is protected. I look forward to hearing from you.

Sincerely,

Monica Van Bussum
Sr. Water Resource Agent
