There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

The subdivision has been developed, and permit holder believes that all diversion and delivery systems
have been installed and stubbed out to individual lots, although not all lots have been built on at this point.

Costing \$Undetermined

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The subdivision property was taken over by the lender in foreclosure, and the parties are currently working through the issues created in that process. The permit holder is presently working with the parties involved to determine who is best suited to assume ownership of the permit and submit the proof of beneficial use. An extension of time is necessary for the parties to continue those discussions and to make the necessary determination.

Permit holder(s) request an extension to November 1, 2012.
