The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE of \$50.00** to be included with this form when filed with IDWR.

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".)

The City has completed the drilling and development of the well and is currently in the process of designing the pump house.

Costing \$ 142,740

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Originally the proposed municipal well was part of a development which ran into financial issues and is not continuing. The City needs the well to meet the source requirements per DEQ regulations and has taken over the design and construction of the well. The City finished drilling the well and is currently in the process of completing the design of the well house. The City plans on beginning the construction of the pump house in Fall of 2011.

Permit holder(s) request an extension to November 1, 20 12.
