I didn't send those originals. Actually the original Brockway letter went back with the exam and I kept a copy. The "original" Clear Springs letter was scanned and emailed to me to begin with. So I just sent the original Extension document, plus the scanned copies of the letters. Did you receive the Extension?

Yeah, Trish and I decided yesterday the prolonged beautiful fall weather was payback for the crappy spring and early summer weather this year. However, when it turns it'll likely be ugly. So, enjoy it while you can!! My garden is long gone but I still have flowers (and now, pumpkins) on the patio, and that's quite nice to still look at.

Hi Cindy, Darla Here! How's it going? It's very warm and beautiful outside here today. I was just wondering when you placed the original letters from Brockway Engineering and Clear Springs Foods in the mail to the SO?

Subject: Request for Extension of Time

Hi Emalee –

The attached Request was received today; I wanted to get you a preliminary copy since proof is due on Monday Nov 1. I will send the original by statehouse mail.

A statement of proof and a BU exam were originally submitted earlier this month but were withdrawn by the permit holder in lieu of the request for extension. I returned the field exam and proof form docs to the permit holder but have included in the scan, a copy of the cover letter and the withdrawal request letter for the file. They aren't necessarily intended to support the request for extension, but I wanted to make the necessary tracks.

Have a good weekend..

Cindy
