RE: Water Right Permit No. 21-07446 & 21-12857

Dear Permit Holder(s):

On October 25, 2010, the Department of Water Resources received the two signed Applications for Amendment for licensing purposes you sent, for permits 21-7446 and 21-12857. Unfortunately, there was an error in the place of use description. The place of use description was both displayed on the face of the amended permit as well as more generally described within the conditions of approval. Because the purpose of use for this permit is municipal, in order to provide for the most flexibility, the standard practice for describing the place of use is through the conditions of approval. In the case of permits 21-7446 and 21-12857, the place of use is described as:

Place of use is within the area served by the public water supply system of Henrys Fork Village Water Co. The place of use is generally located within Section 8, T12N, R43E.

Enclosed are two replacement applications for amendments with the place of use section on page 1 of the amendment removed. Rather the place of use is described under conditions of approval on page 2

Please sign and submit the replacement applications for amendment and return them to this office within 14 days of receiving this letter.

By submitting the enclosed applications for amendment, IDWR will consider it a request to withdraw the original amendment received on October 25, 2010, and replace them with the new amendments. Fees paid in October will be applied to the current applications for amendment so no additional fees are required.

I am very sorry for the inconvenience. Please feel free to contact me with any questions at (208) 287-4916.

Sincerely,

Craig L. Saxton
Water Rights Supervisor

Enclosure(s): Applications for Amendment for permits 21-7446 & 21-12857
