RE: Water Right Permit No. 63-11540

Dear Permit Holder(s):

On April 7, 2006, the Department of Water Resources Department received an Application for Amendment of a Permit with the required \$50 filing fee. The amendment was never processed by the Department and is being returned to you at this time. A copy has been retained by the Department.

The Department is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit.

The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit and the amendment that was submitted in 2006. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ Point(s) of Diversion

☒ Place(s) of Use

☐ Other

By signing and returning the enclosed Application for Amendment form, the Department will assume that you agree with our findings and wish to withdrawal the amendment form that had been originally submitted. The amendment fee has already been paid and no additional fee is due.

Sincerely,
