WATER RESOURCES
WESTERN REGIONSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of IdahoIdent. No. 65-234361. Name of applicant(s) WILLY J. GORRISSEN Phone 208-367-1734
Name connector (check one): ☐ and ☐ or ☐ and/orMailing address: 480 W. RIDGELINE DR. City BOISEState ID Zip 83702 Email: gorrissen@hotmail.com2. Source of water supply BIG PAYETTE LAKE which is a tributary of NORTH FORK PAYETTE RIVER

3. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
19N	3E	28	2	N/A	SW	NE	VALLEY	BIG PAYETTE LAKE	N/A

4. Water will be used for the following purposes:

Amount 0.04 CFS for DOMESTIC purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)5. Total quantity to be appropriated is (a) 0.04 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. PUMP & PIPELINE TO HOME

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11.

For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ Noe. If well is already drilled, when? _____; drilling firm _____;
Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; show name of municipality or the applicant's qualifications as a municipal provider. _____

d. Domestic; show number of households ONE

e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
19N	3E	28			D														N/A

Total number of acres to be irrigated: N/A

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? MIGHT INCLUDE LAWN/GARDEN USE AT NEW HOME. RIGHT 65-9000 OWNED BY APPLICANT, SEE ITEM #11 BELOW.

10. a. Who owns the property at the point of diversion? STATE OF IDAHO, ID DEPT. OF LANDS (IDL)
- b. Who owns the land to be irrigated or place of use? APPLICANT
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: IDL APPLICATION L-65-S-412C PENDING

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. This application results from correspondence between IDWR & IDL. IDL application is pending for lake access to install the proposed pump. This water right application is filed to cover the proposed pump for a new guest home being built on same site as applicant's water right 65-9000 (existing pump for existing home).
For legal description see attachment
See attachment about application fee.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

EXTENSION OF TIME TO AVOID FORFEITURE OF WATER RIGHT

DBL Co. Inc. of 4444 Hillcrest Dr., Boise ID 83705 filed two Applications proposing Extension of Time to Avoid Forfeiture of Water Rights. Both rights are from Chipps Creek for irrigation and stockwater uses. The rights serve land in the south end of Round Valley around Bacon Creek Road. The rights are currently in the name of Ringel as follows:

No. 65-3681 with an 1898 priority totaling 0.76 cfs for 32 acres.

No. 65-5033C with an 1897 priority totaling 4.98 cfs for 249 acres.

DBL requests extensions of time due to complications regarding foreclosure sale of the property. DBL proposes to resume use of the rights within 5 years.

Permits will be subject to all prior water rights. Protests may be submitted based on the criteria of Idaho Code § 42-211 / § 42-222. For specific details regarding the application, please contact the Idaho Department of Water Resources (IDWR) Western Region at 208-334-2190 or visit www.idwr.idaho.gov with details provided under "new water right applications." Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise ID 83705 together with a protest fee of \$25.00 for each application on or before November 22, 2010. The protestant must also send a copy of the protest to the applicant.

RE: Application for Permit: 65-23436

RE: Application for Extension of Time to Avoid Forfeiture for Water Right No(s): 65-3681 & 65-5033C

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Buffington

Steve;

Our plan is to install the pump and water line before the end of 2010, therefore a 1 is fine. We are all ready to proceed once we get approval.

Though I very much hope this happens but in case it doesn't is there a downside to putting in a 2?

Thank you,

Willy Gorrissen

Willy:

The "1 year" listed in item 12 of the application means you will complete the proposed development and use the water within 1 year from date of approval of the application. The maximum development period is 5 years.

Can leave it as 1 if you are confident your new pump & guest house will be in operation by the end of next year. Or you can propose 2, 3, 4 or 5 years (choose one) if you want more time to complete the project.

Please reply by email to confirm 1 year or to select more than 1 year. Thank you.

Subject: Water Rights from Big Payette Lake

Dear Mr. Lester:

Attached is my application for a new water right from Big Payette Lake to provide water to my guest house currently under construction.

I've included as an additional attachment for item 11, my legal description. Item 12 confuses me. I entered a 1 but if that means I would not be able to draw water from the lake for a year that will be a problem. I expect the house will be finished by the end of 2010. (As you know we would have started this process earlier but got bad information from the Department of Lands.) But if it means that I'll only draw water for a year that also is not correct. As you can imagine I plan on using lake water for years. As you understand what I am doing if a different number should be there please replace my 1.

I hope as you suggested you'll be able to expedite my application.

If there are any questions or a need for additional information please either call me in Boise at (208) 367-1734 or email me at Gorrissen@hotmail.com.

Thank you for your assistance,

Willy Gorrissen

Re: Water Rights from Big Payette Lake

Dear Mr. Gorrisen:

This letter concerns your recent application for transfer for a new pump to divert water from Big Payette Lake. The pump will serve a new guest home on your lot at the lake. Previously I advised you to file this type of application for the project. In hindsight, that was a mistake on my part.

Your water right 65-9000 covers an existing diversion for the existing home on your lot. That right was decreed for a single home (copy of 1998 decree attached). An application for transfer could be approved if the new development would not result in an enlargement of use under the right (I. C. § 42-222). Adding a second diversion to the right would not necessarily enlarge the right. However, adding another home to the right could enlarge the right, even though the amount of additional water for a guest home would probably be minimal. To approve a transfer under these circumstances, you would need to reduce water used at your existing home and replace it with the same amount of water for the guest home. Although that is possible, it is not practical and probably not what you had in mind.

Instead, you should seek a new water right for the proposed development. A new water right avoids the enlargement issue and provides greater flexibility in your overall use of water for the property. Please review the enclosed application for permit that can substitute for the transfer application. If the site is within a subdivision, add the lot, block and subdivision information to item 11. For item 12, enter a number between 1 and 5 for the amount of time needed to complete the project and apply the additional water to a beneficial use. Please correct any items in the application for permit that are not accurate.

Withdrawal of the transfer application and use of the fee you paid for that filing is covered by the application for permit attachment (same fee for both types of applications). Your signature is needed under item 13. Please return the completed application for permit to this office for expedited processing.

Subject: Transfer of Water Right

Dear Mr. Lester,

Thank you for taking time on Friday to discuss what I need to do to get approval to install a second pump in Payette Lake under my current water right 65-9000.

As I mentioned on Friday and have noted in the attached Transfer application we are building a guest house adjacent to our existing house and would like that house to draw water from Payette Lake with its own water pump. We need to do this as the existing pumping system is not useable in the winter while the new house will use it then. There will be no ownership change of the right or a change to the legal description.

Attached is a completed Application for Transfer of Water Right. I've completed as much as possible but much of it does not seem relevant. Also enclosed is a \$100 check for processing the application.

I hope as you suggested you will be able to expedite my application given its simplicity.

If there are any questions or a need for additional information please either call me in McCall at (208) 634-7238 or email me at Gorrissen@hotmail.com.

Sincerely,

Willy Gorrissen

McCall, ID 83638

Re: Gorrissen Application L-65-S-412C

Dear Mr. Corkill:

The Idaho Department of Water Resources (IDWR) offers the following comments for the Gorrissen application to install a new pump and pipeline in Payette Lake.

The applicant holds water right no. 65-9000, copy enclosed. This right authorizes one diversion from the lake in Government Lot 2 (SWNE), Section 28, T19N, R3E. The water right covers domestic use for property in the same legal tract. The above referenced application proposes work in this portion of the section.

Scenario #1 - IDWR has no concerns if this application is for a replacement diversion. In this case, the applicant does not need to contact IDWR.

Scenario #2 - If the applicant seeks to add a second diversion to this right, additional IDWR approval would be needed prior to construction of the new diversion system. This would require an Application for Transfer to authorize two points of diversion for the water right. In this case, the applicant should contact IDWR.

Please contact me if you need more information in this regard.

Sincerely,

Steve Lester
Water Rights Supervisor

DATE: September 20, 2010

SUBJECT: NOTICE OF APPLICATION (Willy Gorrissen L-65-S-412C)

Enclosed is an application and plats requesting permission to install 1.5 hp submersible pump and 1¾" Sch 80 PVC pipe approximately 600 feet from shore. Pump will be surrounded by a basket manufactured from 2" and 4" ABS pipe measuring 5 feet long x 4 feet diameter. Line will be trenched into lakebed from shore with a track excavator for approximately 25 feet.

Please submit your recommendations to me by **30 days from date of notice** regarding the likely effect of the proposed encroachment upon adjacent property, lake, and streambed value factors of navigation, fish and wildlife habitat, aquatic life, recreation, aesthetic beauty, or water quality. If you have concerns or are opposed to the project as proposed, please list your specific reasons for concern or opposition and any facts or documentation to support your position.

You should recommend alternate plans if they are economically feasible to accomplish the purpose of the proposed encroachment. You should also recommend any mitigation measures or special restrictions/provisions you would like included as part of the permit if one is issued.

If you do not submit a comment, I will assume you have no objections to the application. If you have questions concerning the application, I suggest you contact the applicant. If the applicant cannot answer your questions, please contact us.

JOINT APPLICATION FOR PERMITS

U.S. ARMY CORPS OF ENGINEERS

IDAHO DEPARTMENT OF WATER RESOURCES

IDAHO DEPARTMENT OF LANDS

Authorities: The Department of Army Corps of Engineers (Corps), Idaho Department of Water Resources (IDWR), and Idaho Department of Lands (IDL) established a joint process for activities impacting jurisdictional waterways that require review and/or approval of both the Corps and State of Idaho. Department of Army permits are required by Section 10 of the Rivers & Harbors Act of 1899 for any structure(s) or work in or affecting navigable waters of the United States and by Section 404 of the Clean Water Act for the discharge of dredged or fill material into waters of the United States, including adjacent wetlands. State permits are required under the State of Idaho, Stream Protection Act (Title 42, Chapter 38, Idaho Code and Lake Protection Act (Section 58, Chapter 13 et seq., Idaho Code).

Joint Application: Applicant will need to send a completed application, along with one (1) set of legible and reproducible drawings illustrating the location and character of the proposed activities/project to both the Corps and the State of Idaho. Information provided on this application will be used in evaluating the proposed activities. Disclosure of requested information is voluntary, however, if the information is not provided, the application may not be processed and permits may not be issued. Information requested in Block 26 and Block 27 are not required to process the application. DO NOT START WORK UNTIL YOU RECEIVE ALL PERMITS FROM BOTH THE CORPS AND THE STATE OF IDAHO.

Drawings & Supplemental Requirements: See Instruction Guide for required vicinity map, plan-view, and section-view drawings on 8-1/2 x 11 paper size.

INCOMPLETE APPLICATIONS MAY NOT BE PROCESSED

24a OVERALL DESCRIPTION & PURPOSE OF PROJECT TO WATERS OF U.S., INCLUDING WETLANDS Attach additional sheet(s), if needed:

Installation of low water line and pump in Payette Lake to provide domestic water for a private residence

24b DETAILED DESCRIPTION OF EACH INDIVIDUAL ACTIVITY, WITHIN OVERALL PROJECT (Include dimensions, equipment, construction, methods, etc.):

Install 1 1/2 hp submersible well pump and 1 1/4" sch. 80 pvc pipe approx 600' from shore. pump will be surrounded by a basket manufactured from 2" and 4" abs pipe measuring 5' long x 4' dia. line will be henced into lakebed from shore with a track excavator for approx 25'

25a DESCRIBE MEASURES TAKEN TO AVOID, MINIMIZE, COMPENSATE FOR IMPACTS TO WATERS OF THE UNITED STATES, INCLUDING WETLANDS: See Instruction Guide for specific details.

Installation at low water level with every attempt made to minimize disturbance to the lake and its shoreline.

25b PROPOSED MITIGATION PLAN: Attach copy of proposed mitigation plan or statement/reasoning why no mitigation plan is required. Attach additional sheet(s), if needed.

26 LIST EACH IMPACT TO STREAM, RIVER, LAKE, RESERVOIR, INCLUDING SHORELINE. Attach site map with location of EACH impact listed; attach additional sheet(s).

Activity Number	Name of Waterbody	Seasonal or Perennial	Avg. Stream Width (Linear Feet)	Description of Impact (road crossing, impound, culvert, etc.)	Impact Length (Linear Feet)
1	Payette Lake			shoreline excavation	approx 30'
2					
3					
4					

TOTAL STREAM IMPACTS (Linear Feet):

27 LIST EACH WETLAND IMPACT, INCLUDING MECHANIZED CLEARING, FILL, EXCAVATION, FLOOD, DRAINAGE, ETC. Attach site map with location of EACH impact listed; attach additional sheet(s).

Activity Number	Wetland Type (Emergent, Forested, Scrub/Shrub)	Distance to Waterbody (Linear Feet)	Description of Impact (purpose of road crossing, impoundment, culvert, etc.)	Impact Size (Acres or Square Feet)
1				
2				
3				
4				

TOTAL WETLAND IMPACTS (Linear Feet):

28 AUTHORIZATION OF AGENT: I hereby authorize the Agent (listed in Block 3 of this application) to act in my behalf in the processing of this application and to furnish all information, drawings, maps, and supplemental information in support of this application.

29 CERTIFICATION: Application is hereby made for permit, or permits, to authorize the work and uses of the work as described in this application and all supporting documentation. I certify that the information in this application is complete and accurate. I further certify that I possess the authority to undertake the work described herein, or I am acting as the duly authorized agent for the applicant.
