RE: Assignment of Permit for Water Right No. 63-32674

Dear Interested Parties:

The department acknowledges receipt of your statement of completion ("proof") form along with an assignment of permit form filed with the department on October 27, 2010. This letter is to inform you that both forms submitted are unacceptable as is.

In order for the department to process the assignment of permit and change the name of the permit holder to Randy and Deanna Berry, the signature on the assignment form must be the signature of the permit holder of record with the Department, which is currently in the name of Deer Point Ranch LLC in c/o John W Ryan, Manager. I am returning the assignment of permit form to you, and ask that you have John W Ryan sign the form under signature of permit holder, and title.

The department will not be able to process your proof form until after the assignment of permit form is deemed acceptable for processing.

During my review of your proof form and the permit for this water right, I found that the permit allows a maximum diversion rate of 0.04 cfs. According to the proof form you submitted, you stated that you are diverting 0.20 cfs. If you are diverting at a higher rate than this permit allows, a new application for permit for the additional amount being used must be filed with the Department.

Enclosed is the original proof form you filed with the department on October 27, 2010. I am returning it to you and request that you change the form to reflect a rate equal to or less than the amount permitted.

After the requested changes have been made on both forms, please return them to me in the enclosed self-addressed stamped envelope. I will hold this matter for your response for fifteen (15) days from the date of this letter. Enclosed is a copy of this permit for your reference.

If you have any questions, please contact me at (208) 287-4945.

Sincerely,

Darla Block
Technical Records Specialist
