)
) ORDER OF PARTIAL DECREE ON
) UNCONTESTED FEDERAL WATER
) RIGHT CLAIMS
)
) ORDER SETTING DEADLINES FOR
) SF5 AMENDED CLAIM FOR 37-20292

The above-captioned water rights were claimed alternatively as implied federal reserved water rights and as state based water rights by the United States of America, acting through the United States Department of Interior, Bureau of Land Management. The claims were included in the *Director's Report for Irrigation and Other Uses, Reporting Area 16, IDWR Basin 37, Part III*, filed on February 21, 2007. No objections were filed to these claims.

As required by I.C. § 42-1411A(12), a hearing was held on October 19, 2010, for the purpose of allowing the United States to demonstrate a *prima facie* case regarding the existence of the above-captioned water rights established under federal law. At the hearing, counsel for the United States informed the Court of its election to seek partial decrees for all of the above-captioned claims, except for 37-20292 and 37-20509, under a federal reserve basis. With respect to 37-20292 and 37-20509, the United States elected to claim the same under state law. No party appeared in opposition to any of the claims. The United States filed an affidavit in support of its claims. The Court has reviewed the affidavit and heard the arguments of counsel in open court and finds that the United States has met its burden of establishing the existence and elements of an implied federal reserved water right for each of the above-captioned water right claims except for 37-20292 and 37-20509.

With respect to claim 37-20292, the Court was informed that clerical errors exist with respect to the legal descriptions contained in the place of use and point of diversion elements of the claim. The United States also alleged an error in the priority date for this right. The United States notified the Court of its intent to attempt to resolve these issues with the filing of a *SF5 Amended Claim* for water right claim 37-20292.

With respect to claim 37-20509, the Court finds that more than sixty (60) days has elapsed since the filing of the *Director's Report* for this claim. No objections were filed to the claim, and no parties appeared to contest entry of a partial decree for the claim based on state law.

THEREFORE THE FOLLOWING ARE HEREBY ORDERED:

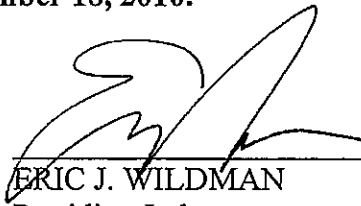

1. Water rights 37-20289, 37-20290, 37-20291, 37-20312, 37-20497, 37-20505, 37-20506, 37-20509, 37-20514, 37-20515, 37-20517, 37-20518, 37-20519, 37-20520, 37-20521, 37-20527, 37-20529, 37-20530, 37-20532, 37-20534, and 37-20537 are hereby decreed as set forth in the attached *Partial Decrees* pursuant to I.R.C.P. 54(b).

2. The Court will withhold entry of a *Partial Decree* with respect to water right claim 37-20292.

3. The United States shall provide the Idaho Department of Water Resources the information necessary for the execution of an *SF5 Amended Claim* for water right claim 37-20292 within 7 days from the date of this *Order*, or on or before **October 28, 2010**

4. Once the information necessary for the execution of an *SF5 Amended Claim* for water right claim 37-20292 is received, the Idaho Department of Water Resources shall review and prepare an *SF5 Amended Claim* and file the same with this Court within 21 days, or on or before **November 18, 2010**.

Dated October 22, 2010.
