RE: Water Right Permit No. 75-14265

Dear Permit Holder(s):

As you remember, I conducted a field exam of your property in August of this year. When I got back to the office, I downloaded the GPS point I took at your point of diversion and found it was in a different quarter-quarter (40-acre tract) than was on the permit. Because this is a change from the permit, we will need you to amend the permit to the correct legal description before we can issue the license. The details are below.

By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. I determined that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at (208) 287-4907.

Sincerely,

Monica Van Bussum
Sr. Water Resource Agent

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, GARY SPACKMAN, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 75-14265 with the following:

CONDITIONS OF APPROVAL

1. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
2. Prior to the diversion and use of water under this right, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion, in accordance with Department specifications.
3. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening and/or fish passage requirements of the Idaho Department of Fish and Game.

Witness my hand this _____ day of _____, 2010.

GARY SPACKMAN
Interim Director
