RE: Amended Page 3 Documents for Preston-Whitney Irrigation Company Transfer Nos.
76833, 76834, and 76835.

Dear Sharla:

This letter is a follow-up to our brief telephone conversation from Friday regarding the above referenced Applications for Water Right Transfer. Since we originally submitted these transfers, we have better refined our GIS capabilities, and have been able to remove county roads from the irrigated acres shapefile that we previously submitted. We have also removed portions of the City of Preston that will not be irrigated. Therefore, the acres under each transfer have been reduced, and we request that the enclosed pages be included in each referenced transfer. Additionally, we have included two copies of the amended maps to be substituted in the transfer document as well.

We note that these transfers are soon to be advertised, and to the extent the amended acreage can be included, we would request that be done. However, we understand that even if the larger acreages are advertised, a reduction in acres will not require an amended advertisement.

We certainly appreciate your attention to this matter, and if you have any questions or concerns, please let us know. Additionally, to the extent it is necessary, we are happy to email the amended irrigated acre shapefiles for each of these transfers. Simply let us know who you would like us to email them to.

Best Regards,

Robert L. Harris
