CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **October 01, 2011**.
2. Subject to all prior water rights.
3. The quantity of water under this right shall not exceed 13,000 gallons per day.

State of Idaho
Department of Water Resources

Permit to Appropriate Water

NO. 45-14315

4. The system established for delivery of water to trough(s) under this right shall be fully enclosed and shall be equipped with an automatic shutoff valve or a mechanism for returning unused water to the source through an enclosed system. The water delivery system shall be designed to facilitate measurement of the rate of flow through the system.
5. Stockwater use is for 966 range cattle.
6. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 45C.
7. This right, when considered with all other rights common to the same grazing allotment, is limited to the quantity of water beneficially used by the number of stock within the allotment.
8. Upon specific notification by the Department, the right holder shall install a lockable device of a type acceptable to the Department in a manner that will provide the watermaster suitable control of the diversion.
9. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 13th day of October, 20 10.

FOR GARY SPACKMAN, Interim Director
