RE: Response to your letter dated November 4, 2009 regarding Permits 65-13912 and 65-13913

Dear Mrs. MacGregor:

On November 9, 2009, the Department received a letter from you regarding the development of permit 65-13912 and 65-13913. In the letter, you requested that the Department approve diversion system plans based on submittals by Terry Scanlan dated March 3, 2008 and Bill Carter dated July 9, 2009. In addition, you provided water measurement data and asked about extending your proof due date to ensure that the permits have been put to beneficial use.

At this time I would like to thank you for your attentiveness in this matter. I realize that you have been anticipating an answer from the Department and apologize we weren't able to get back to you at an earlier date. A full review is still underway of the evaluations by Terry and Bill and hope to inform of our progress very soon.

In regard to the proof of application of water to beneficial use, proof must be submitted by October 1, 2011. The Department will send out a notice that will remind you of the due date. If your project is not completed and the water has not fully been put to beneficial use, you may file for an extension. Instructions for filing an extension will be enclosed in the reminder notice. An extension may be requested for up to 5 years.

If you have any questions or concerns regarding this matter, you may contact me at (208) 287-4944. Thank you for your patience in this matter.

Sincerely,

Cherie Padilla, SR Water Right Agent
Water Allocation Bureau
