Re: Assignment of Permit for Water Right 36-15643, Ownership change

Dear Mr. and Mrs. Stigile:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. The water right indicated on your ownership change form (36-12879) is the water right appurtenant to the land excluded on your Warranty Deed. This water right is a domestic and stock water right probably used with the buildings (Please see map marked #1).

I believe your land has the Water Permit (36-15643) a waste water permit for 48.5 acres. (Please see map #2) Because this water permit has not yet been licensed, an Assignment of Permit is required to complete the ownership change. Enclosed is an assignment form for your use. Please note a \$25 filing fee needs to be submitted also for the Assignment of Permit.

I am returning your check #6004 for \$25 and paperwork that you sent as we only require the completed assignment form and filing fee to process the change.

Please note that water right owners are required to report any change in water rights ownership and/or mailing address to the Department within 120 days of the change. Failing to report these changes could result in a \$100 late filing fee. Please feel free to contact this office if you have any questions.

Sincerely,

Carrie Hahn
Clerk
