Scott,

In reviewing the 3/6/2006 letter from SPF to Jerry Greenland, the content of the letter is basically a memo of a phone conversation between you and Jerry Greenland. To my knowledge I would not know if he had responded back to you directly or not. For this reason, I still need something for the IDWR file in writing from Jerry stating that "he" is waiving the condition for installation of measuring devices above and below the reservoir.

I called Jerry Greenland at (208) 325-8298, and left a message requesting something in writing, but have not heard back to date. Until a waiver, or rejection letter from the water master has been received by IDWR, the conditions have not been met, and a License cannot be issued.

Thank you,

Sandy Hemenway
