Re: transfer evaluation

This transfer proposes to correct the place of use for water rights 31-7489 and 31-7128. Applicant will be using existing wells. Transfer approval 74963 inadvertently left off the QQ where the washing facility is located.

Authority to File:

Applicant is the current owner of water rights 31-7489 and 31-7128 as indicated by IDWR records. Sam Huffman who is the VP of operations & technology signed application.

Water Right Validity:

Forfeiture not an issue.

Injury to Other Water Rights:

Inside the ESPA and in Water district 110. Applicant is only changing the POU. PODs will remain the same. No ground water analysis is needed. Watermaster has no issues with the transfer as long as the applicant has a measuring device and a lockable control works on the diversions. Processed as a non-advertised transfer.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
