RE: Transfer #66354 (old #4930)

Dear Applicants:

In reviewing the file for the above referenced application for transfer, it appears to have been held for several years without any action. (This transfer involved rights 36-15 and 36-18 for irrigation from Weatherby Springs and Billingsley Creek.) At this time the Department requests, in writing, an indication of your continued interest in the application.

This transfer was protested by Michael Branchflower, Verl Bell, Aqua Life Corp, and Western Legends. (Western Legends withdrew their protest on September 11, 1998.) The Department, however, cannot proceed with the normal processing of the application until the remaining protests are also resolved.

Please consider with the remaining protestants the best option(s) for resolution of the contested application. If no resolution is accomplished within a few weeks, a pre-hearing protest conference may be scheduled upon request.

If you wish **to withdraw the application, please sign and return the enclosed withdrawal form** at your earliest convenience. This action will classify the Application as null, void and of no further consideration by the Department.

Failure to respond to this letter by September 30, 2010 may result in a default order being issued which will void your application. If you have questions, please feel free to contact this office.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
