Subj: BUCKEYE TRANSFER

Jim, Marcie brought me into the loop on this old proposal. I talked to Jim Johnson about what records to use. He felt comfortable using the current version of the R-records for 36-00015 and 36-00018 to establish the right as recorded for Part II of the transfer application. One proviso, however, is the advertisement should not show the "R" itself. Another directive is to require a copy of the deed for the parcel sold from which the water is coming.

Marcie said you on vacation for two weeks starting Monday. Have a good break from the salt mines.
