

MEMORANDUM

DATE: October 1, 2010

TO: Water Right File 25-13979

FROM: Shelley W. Keen 

RE: Mitigation plan not supplied

Approval condition no. 13 of Permit 25-13979 requires the permit to submit and implement a mitigation plan “prior to diversion of more than 0.04 cfs and 2500 gallons per day . . . for gravel washing and cement mixing” Because no mitigation plan has been provided to the IDWR, it must be assumed that the permit holder is not exceeding the 0.04 cfs and 2500 gallons per day limits for the gravel washing and cement mixing component of this permit.
