3. Domestic use includes a pond with man made stream for aesthetic purpose associated with the residence.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 47-17538

4. Diversion and use of water from the unnamed stream (locally known as the J-2 Coulee) during the irrigation season is limited to the amount of water delivered pursuant to Twin Falls Canal Company shares. This right does not allow additional water to be diverted during the irrigation season from the J-2 Coulee but only allows additional use of the water before being used for irrigation pursuant to shares in the Twin Falls Canal Company.
5. The unnamed stream at times includes wastewater originally diverted by the Twin Falls Canal Co. The wasting of water may be discontinued at any time.
6. The domestic and stockwater use authorized under this right and all other domestic and stockwater rights appurtenant to the place of use for this right shall not exceed a combined total of 13,000 gallons per day.
7. Use of water for domestic purposes under this right shall be non-consumptive.
8. This right does not grant any right-of-way or easement across the land of another.
9. Any license issued by IDWR pursuant to the right or portion thereof for the use of trust water is subject to a term review of 20 years after the date of this approval to determine availability of water for the use and to re-evaluate the public interest at the end of the term.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 30th day of September, 2010.

GARY SPACKMAN, Interim Director
