RE: Application for Transfer No. 74310, Letha Irrigation & Water Co., Inc.

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

Please be advised that the applicant has indicated that there is an error in our records concerning points of diversion located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 8, Twp. 6N, Rge. 2W. We are wondering if you can confirm that there are 2 separate points of diversion for the Seitz ditch (Rt. 65-82) and the Woods ditch (Rt. 65-78). If you agree with the applicant we can remove a remark on their decreed rights that state they are both diverted from the same point. If you cannot confirm this, please advise us and we will conduct a field examination to verify this information.

If this application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

We will finalize review of an un-protested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will assume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Buffington, Administrative Assistant

For: KAY WALKER
Sr. Water Resource Agent
