RE: Statement of Completion for Permit Nos. 21-7593 and 21-13053, Held in the Name of Centennial-Southshore Homeowners Association, Inc., and Submission of Beneficial Use Field Reports Prepared by Certified Water Right Examiner Paul H. Scoresby.

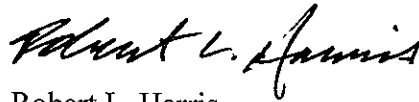

Dear Dave:

Enclosed for processing are Statements of Completion for Submitting Proof of Beneficial Use for Permit Nos. 21-7593 and 21-13053. Also enclosed are Beneficial Use Field Reports prepared by Paul H. Scoresby, P.E., of Schiess and Associates, for both water right permits. As you can see from the documentation, both permits authorize the diversion of ground water for the Centennial Shores subdivision near Island Park, Idaho. Two wells have been developed under both permits, and both have been drilled and are operational. Combined, both permits allow for the development of 2.06 cfs for domestic purposes. As you can see from the Beneficial Use Field Reports, the full extent of these permits have been developed, and combined should have conditions which limit the diversion of both rights to 2.06 cfs. Additionally, and perhaps most importantly, we request that the beneficial use of these water rights be changed from domestic to municipal. As you know, the Idaho Department of Water Resources has recently changed its policy in this regard and permits a change from domestic to municipal use through the licensing process. Our understanding is that this has recently been done for other water right permits in the Island Park area.

If you have any questions or concerns, please contact me or Paul H. Scoresby, and we would be happy to answer any questions you may have. We note that we have not included any examination fee, and upon reviewing instructions for filing Proof of Beneficial Use, note that a fee is not required if a Field Examination Report prepared by a certified water right examiner is provided. Therefore, we have not included the fee requested on the Statement of Completion for Submitting Proof of Beneficial Use. We appreciate your attention to this matter, and look forward to its prompt processing.
