Michele,

I didn't remember correctly, my photography is 2007, not 2008. I think with a couple of ground level photos I can sketch the additional pond with reasonable accuracy. I still haven't received any help on the projection of the survey data but still expect to get some help.

You have probably already done what the attached photo shows. This is the 2007 photography. The subdivision is in Government Lots 7 & 8 Sec 16 and 1 & 2 Sec 21, all in 4N 1E, B.M. I will try to get the shape of the additional pond to you early next week and will let you know what I learn about the survey data projection as soon as I have something.

Attachments: Riversend Svy.shx; Riversend Survey.dbf; Riversend Survey.SHP; Riversend Survey.shx; Riversend Svy.dbf; Riversend Svy.pdf; Riversend Svy.SHP

Michele,

Attached are some files that might help you. The *.pdf shows the plat I prepared to identify acres per government lot from the survey plats. I used a product called Muncy and it doesn't do the best job exporting to shape files but there is something maybe you can work with.

The file called "Riversend Survey.shp" was exported as a line file and I think is an accurate representation of the original plat that I prepared. The shape "Riversend Svy.shp" was exported as a polygon shape and some of the lines are missing. Hopefully the combination plus the pdf will be helpful to you.

Please let me know if you have questions or need additional information.

Subject: shape files for app 63-31515 and 70024

David,

If someone from your side has created CAD files or ARCMAP shape files for the places of use, and/or points of diversion associated with these two water right processes, I would accept them gladly. I opened the ARCMAP files for these rights this evening and I believe that, like the paper file, they represent an older version of these applications. If you can provide me updated shape files, it would save me from creating or re-creating them.

Thanks
Michele

Thanks Michele,

I worked on 63-32613 & 63-32614 but not 63-31836 but I don't think 63-31836 involves the subdivision or the transfer.

Please let me know when I can be of some help.

David

David,

It's good that you are willing to be a resource for me. I do have another file banded to the transfer: an application for permit 63-31515 with aesthetic storage use.

Be patient with me a little longer while I get up to speed. Steve Lester had this set of files until recently and he is a very detail oriented person. I am the recipient of his notes.

To me, it makes good sense to work up this transfer with the decreed rights 63-32613 (Williamson) and 63-32614 (Howell-Kiser). 63-31836 (Mahoney) brings the 3-right total equivalent to parent 63-270. If you assisted with those decrees then you really are way ahead of me.

I hope to make some progress on this transfer process, this week and I will stay in touch.

Michele

Michele,

I was the one involved with the transfer and have continued to work on the water rights for the subdivision through the SRBA. Please let me know what you need & we can get this wrapped up.

I don't know if you have found it yet, but there is a companion water right application that goes with the transfer. It probably makes sense to look at them together. You may also want to look at the right as decreed in the SRBA. I think that gets part of the transfer issue resolved.

Thanks in advance. Let me know what you need.

Subject: transfer application 70024

Mr. Shaw,

I have been assigned to a 2002 vintage transfer application (#70024) which is in the names: Howell-Kiser Development Corp and Sylvan Williamson. There is some evidence in the file that either you or someone in your office is a representative for the applicants.

From my initial review of the file documents, I know that I will need to establish contact with a that individual so that together we can work through the complexities that have stalled this transfer process.

If you are no longer the best point of contact, would you please forward this inquiry to the appropriate person for me. Thank you.

Respectfully,

Michele Edl
