Re: water master comment

I connected with Rex Barrie about this transfer. It was not apparent to me that they had accomplished pod change. Although because of the age of this application it was likely. Rex was not familiar with any new diversions in the PLSS address I gave him.

I told him that Dave Shaw, ERO, was the consultant for the applicant and Rex contacted him.

The POD change has occurred. Rex has no problem with it and asked for standard water master conditions. Rex will get contact information for the homeowners and will work with them to get a meter on the pump.
