RE: Application for Transfer 70024

Dear Mr. Shaw:

The Idaho Department of Water Resources (IDWR) is currently reviewing the above application for transfer. As you know, I have been assigned to evaluate this transfer and its related permit, 63-31515. This letter is a follow-up to our email and phone exchange from November 19th and 20, 2009.

The original 2002 transfer application intended to act on a right which is no longer active. In my review of the active rights associated with the place-of-use, I found that Decreed Right 63-32613 is the best match to the right listed in the original application. However, I am unable to proceed with the processing of either the transfer or the permit because I lack some necessary information. Please provide the following:

- 1) An updated map of the place-of-use which shows the number and location for the aesthetic ponds pertinent to these two applications.
- 2) An estimated volume for the ponds.

The Department will hold further processing of these applications for 30 days to allow submittal of the required information. Additional time may be granted by the Department upon receipt of a written request and sufficient justification for an extension. After that time if adequate information is not received, the Department will issue a preliminary order to reject or deny the applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov.
Feel free to contact me with questions. Thank you for your attention to this matter.

Sincerely,

Michele Edl
Associate Engineer
