Michele,

Thank you for the update. We should be able to have the amended transfer application to you by your original date. The only difficulty might be getting signatures and if that appears to be a problem, I will let you know.

I assume the application for permit can continue to be processed in its present form and I need only prepare an amended application for transfer. If that is not correct, please let me know along with the changes that will be necessary for the permit application.

Thank you again and have a merry Christmas and happy holidays if I don't "talk" to you before.

Dave

Dave,

Thank you for calling me and updating me about this transfer this morning. And, thank you for bringing my attention to the correct decreed water right. My Dec 3<sup>rd</sup> letter listed 63-32613 as the best fit to this transfer's intent. That is not correct. As you pointed out, the best fit is decreed right 63-32614. I apologize for any confusion I may have caused by that error.

I have conferred briefly with Pam Skaggs and she has no problem with your proposed solution. To paraphrase, that proposal is: 1) to amend the transfer again, 2) to apply for an additional permit to cover the area and volume that have been put into aesthetic use that are not covered by the current transfer-permit pair.

Pam's weightiest concern was to keep any new submittals due within a short time frame. Based on our conversation this morning, I believe that your client will be willing to help you and I expedite these processes.

Will you be able to submit the amended transfer within the 30-day target I had in mind in my December 3, 2009 letter?

Can you comply with a January 4-8, 2010 due date?

I will be working the week between the holidays so I would be happy to accept it early.

Michele
