RE: Water Right Permit Nos. 74-15878 (Re-numbered from 75-7647), 75-7672, and 75-14064

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permits referenced above prior to issuing water right licenses. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. Certain elements of the permits have been developed differently than described on your permits. Changes that do not increase the authorized use of water under the permits can be requested and approved in accordance with Section 42-211, Idaho Code. Before licenses can be issued, your permits must be amended to depict your water use as it was actually developed.

Based on the field examination findings, the following elements were developed differently than described on your permits:

☒ **Points of Diversion (74-15878; please note that the diversion for this right was found to be in basin 74 not 75 and has been re-numbered accordingly, 75-7672 and 75-14064)**

☒ **Place(s) of Use (75-7672 and 75-14064)**

The enclosed Application for Amendment forms depict the elements of the water rights as they will appear on the licenses when issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them with the \$150.00 filing fee (\$50.00 each) within 14 days.

If you have any questions, please call me at 208/287-4944.

Sincerely,

Cherie Padilla, Sr. Water Resource Agent
Water Allocation Bureau
