Craig:

Your language is acceptable. Thank you for giving me a call on this. If you want to reissue the order (possibly today), I will sign the application for amendment and file it with IDWR.

Thanks again,

Hey Rob,

Per our conversation yesterday, do you think changing the language of the order in Paragraph 28 as described below would be acceptable?

28. On January 22, 2010, attorney Robert L. Harris and Ernest Carlsen, IDWR Water Resource Program Manager, signed a Resolution of Protest Against Voiding Permit 22-7114 (resolution). One of the issues addressed in the resolution was the beneficial use developed during the authorized development

period for 22-7114. Both agree that 2.94 cfs of water from Canyon Creek was developed under permit 22-7114 within the authorized development period above and beyond prior water rights.

Let me know what you think. If it is acceptable, I will try to get the new order updated, signed and out the door (probably on Monday) so we aren't waiting another week for me to get back into town.

Thanks for working with us on this. I really appreciate it.

Craig

Craig:

Attached is a motion for reconsideration on the Steveco water right permit. The amendment is fine, but I wanted the preliminary order to reflect more of the Memorandum Ernie and I signed.

Also, I also have a status conference scheduled for 9:30 today, but it does not appear on the court's calendar. Have you heard whether it has been cancelled or not?
