Season of Use

The season that was permitted was 5/1-10/1 or 154 days. The license will be issued with the shortened season since it cannot be enlarged.

Volume and Diversion Rate

The license will include a rate of 0.04 cfs as permitted. The volume is based on the Water for Livestock for Out of Stream Diversion spreadsheet. Water usage for 500 range cattle for 365 days is 6.7 af . Since we only are permitting 154 days, the volume will be:

$(6.7 \text{ afa}/365 \text{ days}) \times 154 \text{ days} = 2.8 \text{ af}$
