RE: Water Right 96-9243

Dear Mrs. Day,

The Idaho Department of Water Resources (IDWR) is in the process of licensing your water right permit for domestic and power uses from DeLyle Creek.

In evaluating a permit for licensure, IDWR must quantify the diversion volume of water that is used in your system in any given year. There is some information that will provide us useful information in calculating a diversion volume for your power use and am asking that you please answer the following questionnaire and return it to IDWR within 30 days.

Once IDWR is able to assign your water right a diversion volume, we will issue your license. Your cooperation is appreciated in this matter and let me know if you have any questions. You can contact me at (208) 287-4944.

QUESTIONNAIRE

1. How many months out of a year do you occupy the property at 2413 Twin Creek Rd? 12 months
2. Do you run the hydropower system 24 hours/day? YES
3. Does DeLyle Creek freeze over the winter months? If so, on average, how many months is the creek frozen? NEVER FREEZES UP, ALWAYS RUNS
4. Does DeLyle Creek ever dry up? If so, on average, how many months is the creek dry? NEVER IN OUR 16 YEARS EXPERIENCE

I, TERESA A. DAY attest that the above information is true and correct to the
Print Name
best of my knowledge. *Teresa A. Day* 9-13-2010
