RE: Licensing Review Memo

Time Line:

Application for Permit Received: 12/13/04

Permit Approved: 3/2/05

Proof of Beneficial Use Received: 5/26/05

Field Exam Conducted: 7/18/08

POU Overlap Analysis: Water right 74-15538 shares the same reservoir and conveyance system. No combined limit conditions will apply. Note that 74-15538 lists the source as "spring" tributary "sinks" and that is how this permit was approved as well. Upon further review, this "spring" runs into Baker Creek which empties into the Lemhi River. I am clarifying the source on this permit to be licensed as "spring" tributary to "Baker Creek". This right will be subject to water district 74.

Conditioning

Comment	Water Permit Condition Report
Carry to license	R37 This right, when considered with all other rights common to the same grazing allotment, is limited to the quantity of water beneficially used by the number of stock within the allotment.
Carry to license	071 The use authorized under this right shall not exceed 13,000 gallons per day.
Modified since water has been diverted	029 Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening requirements of the Idaho Department of Fish and Game.
Delete	X02 Stockwater use is for 283 range cattle.
Carry to license	Source is known locally as Cat Spring #2

PD Summary

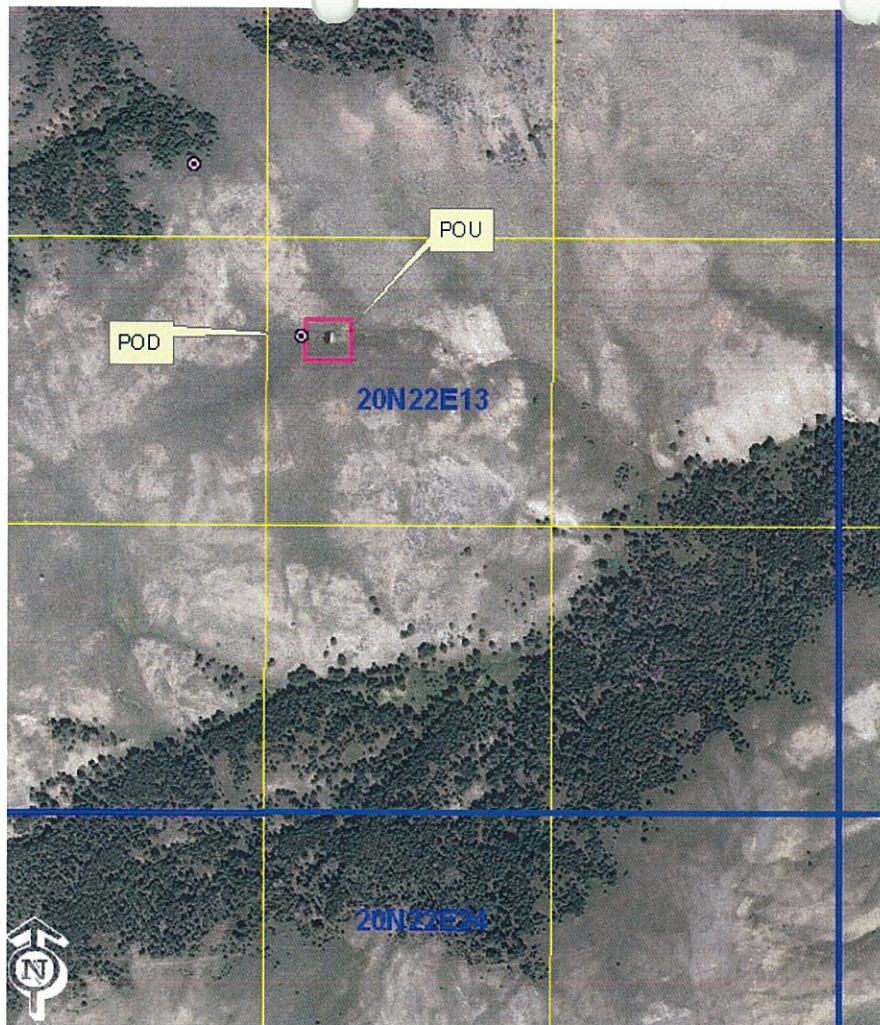

Tag #	Location	Rights that Use PD	Uses
NONE	NWNWSE Sec 13 20N 22E	74-15576 74-15538	Stockwater Wildlife

Season of Use: Year-round

Volume and Diversion Rate: Rate confirmed for 0.02 cfs. The volume is based on the field examiner's spreadsheet for Out of Stream Water Usage for Range Cattle. For 285 cattle, the volume is 3.8 afa.

Amendment Needed? NO
