Re: transfer evaluation

This transfer proposes to change the place of use to the current use. All of the water rights(gw and BLR)) will be in one large permissible place of use. The place of use was changed a couple of years ago. Land was swapped with Metcalf at the southeast corner. Metcalf transfer has been approved. Security interest holder gave his ok.

Authority to File:

Applicant is the owner of record as far as the SRBA decrees. Provided deeds for the land exchange.

Water Right Validity:

These water right were decreed in the SRBA in 2002. Air photos show it to be irrigated in 2009. Forfeiture is not an issue.

Injury to Other Water Rights:

Changing the place of use from one QQ to another QQ for 40 acres, combining the water right places of use for the rest. No hydrologic changes. Changes occurred years ago. Transfer will be processed as a no advertise transfer.

In WD 34, watermaster didnt comment.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
