RE: Water Right Permit No. 13-7447

Dear Permit Holder(s):

The Department of Water Resources is re-evaluating your above referenced permit as part of our routine prior to issuing a water right license. Upon further review, it appears that the maximum diversion volume should be 9.5 af not 11.3 af as documented in the original amendment that I sent to you. The Department modified the maximum diversion volume from 11.3 acre-feet to 9.5 acre-feet, which is the total annual diversion volume.

By signing and returning the enclosed Application for Amendment forms, the Department will assume that you agree with our findings and wish to withdrawal the amendment forms that you had originally signed. The amendment fee has already been paid and no additional fee is due.

If you have any questions, please call me at (208) 287-4944.

Sincerely,

Cherie Padilla, Sr. Water Resource Agent
Water Allocation Bureau
